## Marketing Designer & Coördinator

//UX & UI Design

//Online Marketing

//Front-end Development

//Project Management

### Why

I love to work in all aspects of online design. That's what I'm here for. An allrounder that can make himself useful in any Marketingteam, who is a fast and eager learner, and who really wants to add to the growth of the company.

I also feel the need for having overview, processes, communication and clarity. There have been multiple moments in the past where I figured out a way to get this overview, when it wasn't already layed out. I'm convinced I should do more with my urge to find perfection in business structures.
